

LINX 8900 **SERIES** **Continuous Ink** **Jet Printers**

Maximum efficiency, minimal effort - delivering lower total cost of ownership, reduced downtime, and intuitive operation for your production line.

Lower Total Cost of Ownership

Reduced consumables and energy consumption

Lower Downtime

Extended service intervals up to 24 months

Easy to Use

Smartphone-inspired 10-inch touch interface

PrinterNet® Ready

Remote monitoring and control capabilities

Underpinned by Packtronic's expertise and exceptional service and support throughout South Africa.

Easy Maintenance & Operation

Nationwide Support Network

- Fully trained service engineers across South Africa for on-site repairs
- Quick self-service with intervals up to two years
- Fit-for-life pump and serviceable ink system components
- Simple maintenance requiring no specialized technicians

Operator-Friendly Design

- Icon-based intuitive interface for error-free coding
- Mistake-proof one-touch fluid refills
- No critical parts exposed during daily operation
- Weighs just 24.5kg including fluids for easy mobility

6

Lines of Print

Maximum printing capability

10m/s

Print Speed

High-speed production line capability

IP65

Protection Rating

Suitable for demanding environments

24

Service Months

Extended maintenance intervals

AutoFlush Printhead Technology

The revolutionary Linx AutoFlush system automatically cleans the printhead daily, eliminating manual intervention. With cleaning intervals up to three months, you achieve increased production efficiency and significant cost savings compared to competitors requiring daily cleaning.

Startup

Solvent jet runs multiple cycles through nozzle and gutter for thorough cleaning

Transition

Smooth balanced pressure transition from solvent to ink jet eliminates splashes

Ready

Ink jet running at steady speed, ready for production printing

Up to 3 Months Between Cleans

Reduces intervention and downtime significantly

30% Ink Saving

Smaller standard nozzle reduces consumable costs

Zero Waste Cleaning

No solvent waste unlike competitor systems

Lower Total Cost of Ownership

In today's environment of rising costs, Total Cost of Ownership (TCO) is crucial for budget management. While competitors may appear affordable upfront, consumables and servicing costs can strain budgets over time. The Linx 8900 Series delivers comprehensive savings throughout the product lifetime.

Reduced Training Costs

Icon-driven intuitive interface minimizes training requirements and human error

1**2**

37% Lower Power Consumption

Significant energy savings when upgrading from legacy CIJ printers

3

Versatile Fast-Drying Ink

1240 ink supports 40% of applications, reducing stock control complexity

4

Extended Shutdown Capability

Up to 3 months without flushing saves 1.5 hours maintenance per shutdown

5

Self-Service Intervals

Schedule maintenance conveniently, minimizing production line downtime

Less Waste

Mistake-free coding interface and upside-down cartridge design ensures every drop is used

Lower Costs

Extended service intervals, minimal ink changes, and reduced power consumption

Less Downtime

Reduced interventions from automatic printhead cleaning and extended servicing

Comprehensive Ink Solutions

Packtronic offers Linx's extensive ink range to ensure your coding meets all legislative requirements. Our selection guarantees quality prints on common materials like card, glass, metal, and plastics, plus challenging substrates. All inks are manufactured to ISO 9001 quality and ISO 14001 environmental standards.

Fast Drying Black Ink

Suitable for wide range of general packaging and industrial applications

MEK-Free Ink

Excellent adhesion with reduced odour and lower solvent consumption

Coloured Inks

Dye-based inks providing strong contrast on pale substrates

High Opacity Inks

Heavy pigmented inks for printing on rubber, plastic, and metal

Special Adherence Inks

Perfect when production processes challenge adherence or durability

Security Ink

Ideal for anti-counterfeiting and discreet coding applications

Model Comparison & Specifications

Choose the perfect Linx 8900 Series printer for your production requirements. From entry-level coding to high-speed demanding applications, Packtronic has the solution for your business.

Feature	8900	8910	8920	8940	8940 Spectrum
Lines of Print	Up to 3	Up to 3	Up to 6	Up to 6	Up to 6
Print Speed	2.84 m/s	7.28 m/s	7.28 m/s	9.10 m/s	10 m/s

PrinterNet Ready	✓	✓	✓	✓	✓

8900/8910

Maximum efficiency with extended service intervals up to 18 months. Perfect for standard production lines requiring reliable coding.

8920

Code more on faster lines with up to 6 lines of print and 24-month service intervals. Advanced system monitoring included.

8940

Fast coding in demanding applications with IP65 rating. Ideal for wet or dusty conditions at speeds up to 9.10 m/s.

8940 Spectrum

High contrast pigmented coding with patent-pending PureFlow® filtration. Perfect for coloured surfaces and extreme environments.

Contact Packtronic

Packtronic is your trusted partner for Linx printing solutions in South Africa. Our team of experts provides comprehensive support, from initial consultation to ongoing maintenance, ensuring your production line operates at peak efficiency.

Expert Consultation

Our specialists help you choose the right printer for your specific application and production requirements.

Nationwide Support

Fully trained service engineers available across South Africa for installation, training, and maintenance.

Genuine Parts & Inks

Access to the complete range of Linx consumables and spare parts for optimal printer performance.

Get in Touch

Ready to improve your production line efficiency? Contact Packtronic today to discuss which Linx 8900 Series printer is right for your business.

Website: www.packtronic.co.za

Our team is ready to provide demonstrations, technical specifications, and customized solutions for your coding requirements.

Authorized Linx Distributor: Packtronic is your official partner for Linx Printing Technologies in South Africa, providing genuine products, expert service, and comprehensive support.
